

## BIG FOUR RAIL MEN GET WAGE ADVANCES

Increases Aggregating \$5 Million  
Dollars are Allowed by Director  
General Hines.

## AGGREGATES MILLION TOTAL

Wage Raise Since Government Took  
over Roads is From Two to Al-  
most Three Million Dollars.

WASHINGTON, April 11.—Wages aggregating \$65,000,000 were ordered today by Director General Hines, trainmen and engineers in both passenger and freight service members of the big four railway brotherhoods—retroactive since January 1, 1919. The adjustment demands for time and a half pay for overtime was granted for men engaged in yard service and for the others this question was referred to the railroad administration for consideration of compensation to railway trainmen and engineers.

The increases were arranged according to a contemplated schedule, the aims of which was to reduce the wage relationship existing before the railroads increased wages last year. The average advance per man per year will be about \$100.

This action practically completed the war gains of railroad men since the government took over management of the roads 15 months ago. Only a minor request for more pay seems to be acted upon.

Including today's order the aggregate pay increases allowed by the railroad administration to the 3,000,000 railroad employees is at the rate of \$122,311,000 a year, more than two and one-half times the total pay of America's railroads—\$3,000,000,000 a year based on the basis of approximately 1,000,000 on January 1, 1918, when the roads passed into the government hands.

The \$65,000,000 added to the pay of members of the "big four" brotherhoods brings the total grants to the class of employees in the last three years to approximately \$275,000,000 or approximately \$600 per man per year into compensation.

\$122,311,000 estimated as the remittance share of the general wage increase last year and \$70,000 estimated as the fruit for these men from the Adamson act which established a basic eight hour day and put into effect the brotherhood peace for time and a half overtime.

Each day for work since January 1 will be given the brotherhood men as much as they pay except that it may be less than \$60. This may take a month or even more to complete.

In announcing the increase Director General Hines explained that the same principles were followed as were applied by the railroad administration during the war. Those changes included the adjustment of wages to living costs and to variations of employment to the first general wage advance

## WOMAN IN GRANARY RAID GETS MERCY

Court Fixes Small Bond on Archie  
Mitchell's Plea of Innocence—  
Christian Held.

Accused of attempting to burglarize a granary northeast of Mozingo last Sunday night, Jake Christian waived preliminary hearing Friday before Justice S. C. Maxey and Archie Mitchell, woman, was placed under a bond of \$250 for appearance before the district court here. Christian was committed to jail on a default of \$1,000 bail to await trial on the charge.

Archie Mitchell, the young woman who accompanied him at the alleged time, was allowed to fight her case, the court holding that her previous good reputation and the fact that there was no direct testimony to show that she knew of Christian's intentions, aided in mitigating the gravity of the offense.

Testimony went to prove that Christian, accompanied by Archie Mitchell, drove a team and wagon belonging to the latter from Kiener to a point two miles northeast of the latter town. Arriving at a granary owned by L. M. Davis, the man left the wagon and walked to the granary door, where he was met by the woman and was admitted to the granary. She was a man in disguise, wearing a woman's cap and coat.

Winder fired two shots at him and took him to the city jail, where he was held until his transfer to the county jail Friday.
